To whom it may concern:

Our Mission is to rescue, rehabilitate and restore the lives of individuals who have committed domestic crimes and to break the cycle of destructive behavior resulting from an inability to manage committing violent acts.

Court Ordered Classes provides effective domestic violence / battery offender treatment services. Our goal to stop the violence against women and children that result from the use of force or threat to achieve and maintain control over others in intimate relationships, and from societal abuse of power and domination in the forms of sexism, racism, homophobia, classism, anti-Semitism, able-bodyism, ageism and other oppressions by continuing to help offenders gain insight into their violent domestic crimes and victimizations and their potential consequences. Court Ordered Classes provides domestic crime offenders with some new "tools" that they can use to better manage their anger and aggression. Therefore, it is the mission of Court Ordered Classes to work for major societal changes necessary to eliminate both personal and societal violence against all women and children by helping our clients develop the critical skills they need to maintain a non destructive lifestyle, and to re-enter society as responsible and productive members of the community. It is hoped that the skills learned during this program will last a lifetime.
